INDEX

INDEX GUIDE

This is a two-part index: Individuals and Organizations. In part I individuals only are listed alphabetically and begin below. In part II organizations are listed alphabetically and begin on page 150.

Due to the similarity of names of organizations, where possible the names have been preceded by city or State in which they are located. Large cities are listed separately; counties, small towns, and geographical areas are listed under the State.

The code number in the right-hand column refers to the publication in which the individual or organization appears. The code numbers with titles of hearings are listed in the hearing guide on page 241. The contents of each publication must be utilized to further pinpoint the reference sought.

Abbreviations used in this index can be found on page 149.
